

Draft Site Selection Guidelines

Motion 06-004

On August 23, 2006, based on the recommendation from the Conservation Area Site Selection Guidelines Technical Work Group (PDD-06-003), the Steering Committee acknowledged the Draft Final Guidelines for the Screening and Evaluation of Potential Conservation Area (August 10, 2006) with the recognition that it is the intent of the Program Manager that the document remain in draft form for one full cycle for the securement of at least one riparian habitat and one backwater habitat creation site through the annual work plan process. The motion was moved by Bill Werner, seconded by Phil Lehr, and adopted by consensus.
